About Khaas Food

Khaas Food is a purpose-driven food brand from Bangladesh, committed to delivering safe, natural, and high-quality food products to conscious consumers worldwide. Founded in 2015 by two visionary entrepreneurs, the company was born out of a growing concern for food safety, soil health, and sustainable farming practices. The name “Khaas”, meaning uniquely special, reflects our core philosophy: “Purity is Healthiness.” We focus on chemical-free, traceable food sourcing by partnering directly with local farmers and empowering them with sustainable cultivation techniques. Our vertically integrated model ensures quality control from farm to shelf. Starting with just 100 sq.ft. of space, Khaas Food has now grown into a trusted brand with 150+ employees, 18 retail outlets, a robust e-commerce platform, and over 200,000 satisfied customers. Our strict quality standards, ethical sourcing, and transparent processes have made us a preferred choice in the local market—and now we’re ready to serve the global market. Whether it’s naturally grown rice, pure honey, spices, or other pantry essentials—Khaas Food delivers products that meet international quality expectations while preserving authentic Bangladeshi flavors. Khaas Food is not just a brand—it’s a movement towards healthier living and sustainable agriculture. Join us in redefining the global food experience.

Why Khaas Food?
